MATH in real life

Your savings could be worth \$1,215.40* after just 5 years! If you save \$20 per month, over the course of 5 years, you will have over \$1,000 in your savings account. That's pretty impressive! It's never too late to get started, and the earlier you start, the more you will watch your savings grow. Get in the habit today and start saving for your future now!

*Based on current Minor and Junior Savings Account rate (via calculations from bankrate.com) of 0.50% APY.
